Who

We are looking to share the Australian experience and require employees from a diverse range of backgrounds with a variety of skills, talents and aspirations, and a strong work ethic to join us. We are looking to share the Australian experience and require employees from a diverse range of backgrounds with a variety of skills, talents and aspirations, and a strong work ethic to join us.

The main purpose of the position is to assist in the day to day operation of feedlot maintenance. The position includes operating and maintaining machinery, water maintenance, fabrication and welding. The role also includes assisting the maintenance manager in preventive maintenance and ensuring pen surfaces are well kept to meet animal welfare standards.

Our site

AACo owns and operates a strategic balance of properties, feedlots and farms, comprising of around 7 million hectares of land in Queensland and Northern Territory. This equates to approximately 1% of Australia's land mass. Aronui Feedlot is our second largest feedlot and is located 20 km from Dalby.

Knowledge and Skills:

- Pen maintenance
- Mechanical repairs and maintenance of Feedlot, Feedmill, Farm equipment and Vehicles.
- Ensure workplace health and safety procedures are maintained.
- Maintain efficient workshop environment
- Work according to a Maintenance Program for all vehicle, plant and machinery.
- Undertake regular services and over-hauls, and complete repairs and maintenance using, where necessary, power tools, welders and air tools.
- Fabricate, weld and assemble structural metal products
- Work to tight tolerances
- Joint responsibility for ordering all spare parts, oils and fuels for the feedlot
- Operate machinery when required.

- Assist with general maintenance of buildings and station structures, including performing routine daily checks and services of equipment.
- Assisting in production and manufacturing of lick blocks.
- Assist with livestock crew when necessary with animal health and processing.
- train and develop junior staff members

Required Experience:

- Experience with diesel motor vehicles.
- Experience in operating loaders, tractors, tipper trucks
- Strong structural welding or fabrication with fit out experience (Mig, oxy etc) with the ability to read drawings and follow instructions.

Skills and Attributes:

- Ability to work both alone and as part of a team.
- Be able to meet all the educational and experience pre-requisites for the appointed FFB level as specified in the current AACo Certified Agreement.

Accommodation

- Airconditioned accommodation is available

Start Date

ASAP

Additional Notes
